

# Extended Kalman Filter Project

## Local environment setup

Windows10, visual studio 2017

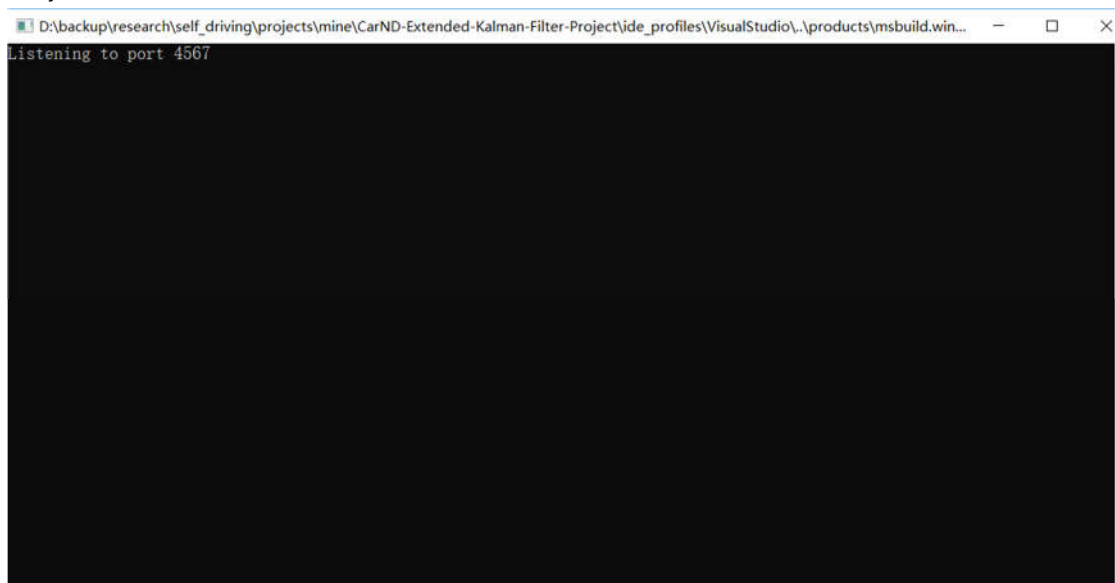

Udacity's project <https://github.com/udacity/CarND-Extended-Kalman-Filter-Project>

Reference <https://github.com/fkeidel/CarND-Term2-ide-profile-VisualStudio>

Term2 Simulator <https://github.com/udacity/self-driving-car-sim/releases>

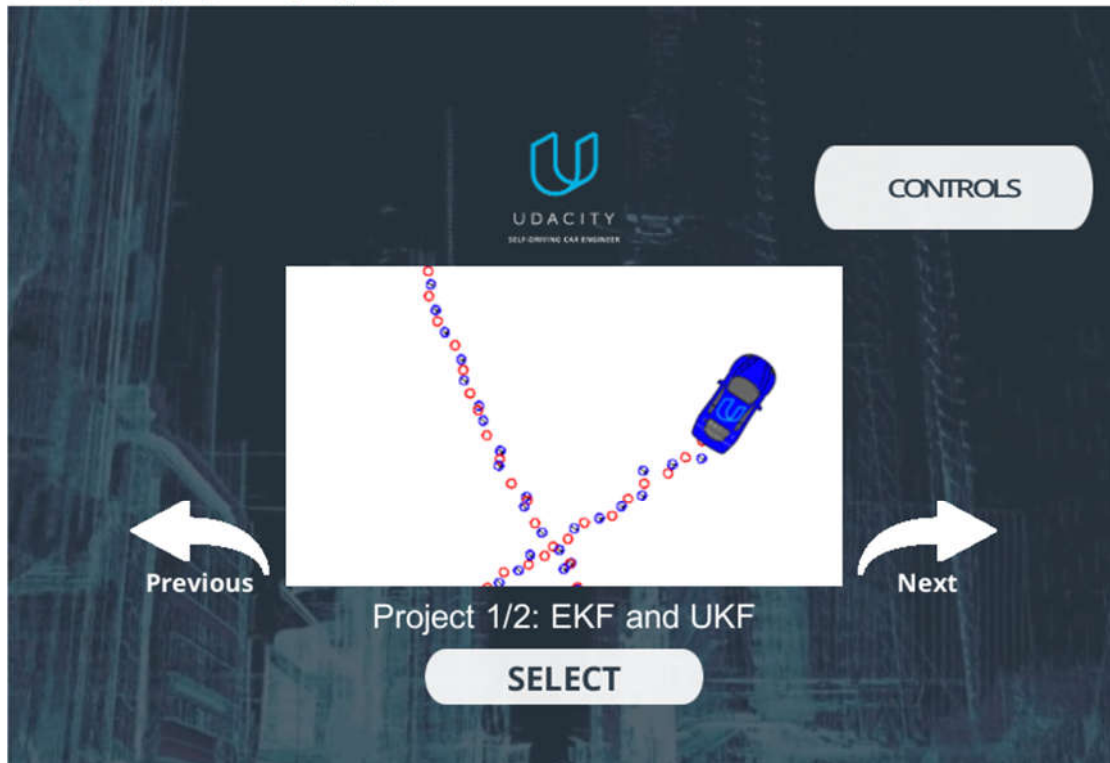

## Test

1. Project run

2. Simulator run

self\_driving\_car\_nanodegree\_program

self\_driving\_car\_nanodegree\_program

— □ ×

Zoom in

Zoom out

Time Step: 0

Restart

**RMSE**

X:

Y:

VX:

VY:

☒ Dataset 1

☐ Dataset 2

Start
